B51

HOOD TYPE DISHWASHER

PRODUCT DESCRIPTION

100% STAINLESS STEEL
Stainless steel structure and tank AISI 304.
Upper and lower wash and rinse rotating arms for easy cleaning.
Stainless steel pump intake filter.
Electro-mechanic functioning.
Two washing cycles: 60 seconds and 150 seconds.
Stainless steel heating elements, resistant to corrosion and limescale.
Suitable for line or corner installations. Height-adjustable legs.
Hood lifting thanks to springs.
The washing cycle starts only when the hood is completely closed.
The appliance stops working if the hood is lifted by chance.
Standard equipped with built-in rinse aid dispenser for the best drying results.
Standard equipped with built-in connection for detergent dispenser.
Standard equipped with built-in connection for drain pump.
As option, stainless steel surface filter available **on demand**.
Standard equipped with a basket for plates and a basket for cups.
Extremely easy to use: in addition to the ON/OFF switch, this model is characterized by just one push-button. So, it stands for the right hood-type dishwasher even for untrained users and extremely hectic bars and pubs.
Classy interface with chromed buttons. LED lamps are more visible than standard to better control the machine also from far away.
